Hyundai SmartSense

Lane Keeping Assist (LKA)*

Sistem akan memperingatkan pengemudi jika kendaraan tersebut meninggalkan jalur tanpa menggunakan lampu sein, dan secara otomatis akan membantu mengarahkan kemudi untuk mencegah kendaraan beralih jalur.

Lane Following Assist (LFA)*

Kamera depan melacak penanda garis jalur dan membantu pengemudi untuk tetap menjaga kendaraan agar tetap aman di tengah jalur.

Smart Cruise Control (SCC) with Stop & Go*

Mengatur kecepatan kendaraan tanpa harus menginjak pedal gas yang secara otomatis dapat menyesuaikan jarak kendaraan di depannya. Apabila kendaraan di depan berhenti, SCC akan secara otomatis mengurangi kecepatan sampai berhenti, dan akan kembali melaju mengikuti kendaraan di depan.

Blind-spot View Monitor (BVM)*

Dengan menyalakan lampu sein kiri atau kanan akan mengaktifkan Blind-Spot View Monitor (BVM), yang memantau titik buta dan memproyeksikan kondisi secara real time pada tampilan metercluster.

Rear Cross-traffic Collision-avoidance Assist (RCCA)*

Memperingatkan apabila ada kendaraan di jalur belakang yang mendekat pada saat mundur dan melakukan pengereman darurat jika diperlukan.

Blind-spot Collision-avoidance Assist (BCA)*

Sensor radar di bumper belakang berfungsi untuk memperingatkan pengemudi ketika ada kendaraan yang mendekat dalam area titik buta dan membantu mengaktifkan pengereman apabila diperlukan.

Forward Collision-avoidance Assist with Junction Turning (FCA-JT)*

Fitur ini memperingatkan pengemudi ketika sistem mendeteksi ada risiko benturan dari arah depan atau saat ingin berbelok ke kanan, seperti misalnya dengan pejalan kaki atau dengan kendaraan yang tiba-tiba melambat atau berhenti.

*Fitur berfungsi sebagai sistem pendukung.

*Pengemudi harus tetap fokus dan berhati-hati selama berkendara.
